Java Enterprise Edition

Fall Semester 2020

Instructor: Zhuanyshev Ilyas

HOME TASK 12

Problem 1

Continue developing Internet Shop Application by using Spring Boot Framework. Add comments module for items. Each authenticated user must be able to add comments for item.

Create entity for comments:

Comment.java

- Long id;

- String comment;

- Date addedDate;

@ManyToOne

- Items item;

@ManyToOne

- Users author;

Access Rules:

- Only authenticated user can add comments into items

- Only author can modify or delete own comment

- Admin and moderator also can delete another user's comment

- Anonymous user also can see a list of comments

Very nice phone, but I think it is too expensive for users

Musa Uatbayev   08.12.2020 - 13:22
I don't like Apple products, but this one is realy one of the best!

Azamat Tolegenov   08.12.2020 - 13:12
I suggest this phone for everyone, but the price is too hight!
